1 Identification

- **Product identifier**
  - **Trade name:** K-Humate S100
  - **Article number:** DK005

- **Relevant identified uses of the substance or mixture and uses advised against**
  - For use in the agricultural sector.

- **Technical function**
  - Fertilizers (soil amendments)

- **Details of the supplier of the safety data sheet**
  - **Manufacturer/Supplier:**
    - **Company:** Omnia Specialities Australia Pty Ltd
    - **Address:** Tramway Road
    - **MORWELL VIC 3840**
    - **Telephone Number:** +61-3 5133 9118
    - **Facsimile Number:** +61-3 5133 9114

- **Further information obtainable from:** info@omnia.net.au

- **Emergency telephone number:**
  - ISS First Response
  - 03 8769 3688

2 Hazard(s) Identification

- **Classification of the substance or mixture**

  - Acute Tox. 4  H302  Harmful if swallowed.
  - Skin Irrit. 2  H315  Causes skin irritation.
  - Eye Irrit. 2A  H319  Causes serious eye irritation.

- **Label elements**
  - **GHS label elements**
    - The substance is classified and labelled according to the Globally Harmonised System (GHS).

- **Hazard pictograms**

  - GHS07

- **Signal word**
  - Warning

- **Hazard-determining components of labelling:**
  - Granular K-Humate

- **Hazard statements**
  - H302 Harmful if swallowed.
  - H315 Causes skin irritation.
  - H319 Causes serious eye irritation.

- **Precautionary statements**
  - P101  If medical advice is needed, have product container or label at hand.
  - P102  Keep out of reach of children.
  - P103  Read label before use.
  - P280  Wear protective gloves / eye protection / face protection.

(Contd. on page 2)
Trade name: K-Humate S100

P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P321 Specific treatment (see on this label).
P332+P313 If skin irritation occurs: Get medical advice/attention.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

· Other hazards
· Results of PBT and vPvB assessment
  · PBT: Not applicable.
  · vPvB: Not applicable.

3 Composition and Information on Ingredients

· Chemical characterisation: Substances
· CAS No. Description
  Granular K-Humate

4 First Aid Measures

· Description of first aid measures
  · General information:
    Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.
  · After inhalation:
    Remove to fresh air. In case of unconsciousness place patient stably in side position for transportation. Moderate irritant. Call for a doctor.
  · After skin contact:
    Immediately wash with water and soap and rinse thoroughly. Remove contaminated clothing. Flush affected areas with plenty of water and soap.
  · After eye contact:
    Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
  · After swallowing:
    Call for a doctor immediately. Do not induce vomiting. Rinse mouth with water (only if person is conscious).
· Information for doctor:
  Treat supportive and symptomatically
  Contains potassium hydroxide

No further relevant information available.

5 Fire Fighting Measures

· Extinguishing media
  · Suitable extinguishing agents:
    CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
  · Special hazards arising from the substance or mixture
    Metal oxide fumes
    Carbon oxides (COx)
· Advice for firefighters
  Dust may form explosive mixture with air.
· Protective equipment:
  Use breathing apparatus with independent air supply (Isolated)
6 Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away.
- Environmental precautions:
  Water soluble fertilizer. Large quantities can kill vegetation. Pick up mechanically and re-use if not contaminated.
  Damp down dust with water spray.
  Do not allow to enter sewers/surface or ground water. Should not be released into the environment.
- Methods and material for containment and cleaning up:
  Pick up mechanically, sweep and shovel into containers. Re-use if not contaminated. If contaminated, store in suitable containers for disposal.
  Dispose contaminated material as waste according to item 13.
- Reference to other sections
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7 Handling and Storage

- Handling:
- Precautions for safe handling Prevent formation of dust.
- Information about fire - and explosion protection:
  Keep ignition sources away - Do not smoke.
  Protect from heat.
- Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles:
  Observe the rules usually applicable when handling chemicals.
- Information about storage in one common storage facility:
  Do not store together with oxidising and acidic materials.
- Further information about storage conditions:
  Keep container tightly sealed in a dry well-ventilated place.
  Protect from heat and direct sunlight.
- Specific end use(s) Agricultural

8 Exposure controls and personal protection

- Additional information about design of technical facilities:
  Ensure eyewash stations and safety showers are close to the workstation location.
- Control parameters
- Ingredients with limit values that require monitoring at the workplace: Not required.
- Additional information: The lists valid during the making were used as basis.
- Exposure controls
- Personal protective equipment:
- General protective and hygienic measures:
  Keep away from foodstuffs, beverages and feed.
  Immediately remove all soiled and contaminated clothing
  Wash hands before breaks and at the end of work.
  Avoid contact with the eyes and skin.
- Respiratory protection:
  In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.
Protection of hands:

**Protective gloves**

The glove material has to be impermeable and resistant to the product/substance/preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

**Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

**Penetration time of glove material**

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

**Eye protection:**

**Tightly sealed goggles**

**Body protection:** Protective work clothing

---

9 Physical and Chemical Properties

- Information on basic physical and chemical properties
- General Information
  - Appearance:
    - Form: Granulate
    - Colour: Dark brown
    - Odour: Odourless
    - Odour threshold: Not determined.
  - pH-value: 11.4
- Change in condition
  - Melting point/freezing point: Undetermined.
  - Initial boiling point and boiling range: Undetermined.
- Flash point: Not applicable.
- Flammability (solid, gas): Product is not flammable.
- Ignition temperature:
  - Decomposition temperature: Not determined.
  - Auto-ignition temperature: Not determined.
- Explosive properties: Product does not present an explosion hazard.
- Explosion limits:
  - Lower: Not determined.
  - Upper: Not determined.
- Vapour pressure: Not applicable.
- Density: Not determined.
- Relative density: Not determined.
- Vapour density: Not applicable.
- Evaporation rate: Not applicable.
6.0

· Solubility in / Miscibility with water: Soluble.
· Partition coefficient: n-octanol/water: Not determined.
· Viscosity: Dynamic: Not applicable. Kinematic: Not applicable.
· Solvent content: VOC (EC) 0.00 %
· Solids content: 100.0 %
· Other information No further relevant information available.

10 Stability and Reactivity
· Reactivity: Stable under normal conditions
· Chemical stability: Stable under recommended storage conditions.
· Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
· Possibility of hazardous reactions: No dangerous reactions known.
· Conditions to avoid: Incompatibles and extreme temperatures
· Incompatible materials: Strong bases and oxidizing agents Heat
· Hazardous decomposition products: Metal oxide fumes Carbon monoxide and carbon dioxide No dangerous decomposition products known.

11 Toxicological Information
· Information on toxicological effects
· Acute toxicity
· LD/LC50 values relevant for classification:

<table>
<thead>
<tr>
<th>Granular K-Humate</th>
<th>Oral LD50</th>
<th>1,786 mg/kg (rat)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>This is an estimated value, based on less than 2% KOH in solution</td>
</tr>
</tbody>
</table>
· Primary irritant effect:
· Skin corrosion/irritation: Irritant to skin and mucous membranes.
· Serious eye damage/irritation: Irritating effect.
· Respiratory or skin sensitisation: No sensitising effects known.

12 Ecological Information
· Toxicity
· Aquatic toxicity: No further relevant information available.
· Persistence and degradability: No further relevant information available.
· Behaviour in environmental systems:
· Bioaccumulative potential: No further relevant information available.
· Mobility in soil: No further relevant information available.
· Additional ecological information:
· General notes: Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water (Contd. on page 6)
Safety Data Sheet
according to WHS Regulations

Trade name: K-Humate S100

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system. Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.
  - Other adverse effects: No further relevant information available.

13 Disposal considerations

- Waste treatment methods
  - Recommendation
    This product is used as fertiliser. However, large spills can kill vegetation. Prevent large quantities from entering waterways. If uncontaminated, sweep up or collect, and reuse as product. If contaminated with other materials, collect in suitable containers.
    On the basis of the necessary technical regulations and after consultation with the disposal agent and the relevant authorities, can be disposed of with domestic waste or incinerated with domestic waste.
    Disposal must be made according to official regulations
    Disposal according to local regulations.
    Must not be disposed together with household garbage. Do not allow product to reach sewage system.

- Uncleaned packaging:
  - Recommendation: Disposal must be made according to official regulations.
  - Recommended cleansing agents: Water, if necessary together with cleansing agents.

14 Transport information

- UN-Number
  - ADG, ADN, IMDG, IATA: Void

- UN proper shipping name
  - ADG, ADN, IMDG, IATA: Void

- Transport hazard class(es)
  - ADG, ADN, IMDG, IATA: Void

- Packing group
  - ADG, IMDG, IATA: Void

- Environmental hazards:
  - Not applicable.

- Special precautions for user
  - ERG No.: None

- Transport in bulk according to Annex II of Marpol and the IBC Code
  - Not applicable.

- UN "Model Regulation":
  - Void

15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
  - Australian Inventory of Chemical Substances
    Substance is not listed.
Trade name: K-Humate S100

(Contd. of page 6)

- Standard for the Uniform Scheduling of Medicines and Poisons
  Substance is not listed.

- Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- Abbreviations and acronyms:
  ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  IMDG: International Maritime Code for Dangerous Goods
  IATA: International Air Transport Association
  CAS: Chemical Abstracts Service (division of the American Chemical Society)
  VOC: Volatile Organic Compounds (USA, EU)
  LC50: Lethal concentration, 50 percent
  LD50: Lethal dose, 50 percent
  PBT: Persistent, Bioaccumulative and Toxic
  vPvB: very Persistent and very Bioaccumulative
  Acute Tox. 4: Acute toxicity – Category 4
  Skin Irrit. 2: Skin corrosion/irritation – Category 2
  Eye Irrit. 2A: Serious eye damage/eye irritation – Category 2A
