FUNGICIDE RESISTANCE WARNING

GROUP 3 FUNGICIDE

Greenseal® is a member of the DMI group of fungicides.
For fungicide resistance management the product is a Group 3 fungicide.
Some naturally occuring individual fungi resistance to the product and other Group 3 fungicides may exist through normal genetic variabiity in any fungal population.
The resistance individuals can eventually dominate the fungal population if these fungicides are used repeatedly.
These resistant fungi will not be controlled by this product and other Group 3 fungicides, thus resulting in a reduction in efficacy and possible yield loss.
Since the occurrence of resistant fungi is difficult to detect prior to use, Omnia Specialities Australia Pty Ltd accepts no liability of any losses that result from failure of this product to control resistant fungi.

Re-entry Period:

DO NOT allow entry into treated areas until the dressing has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing) and elbow-length chemical resistant gloves. Clothing must be laundered after each day's use.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate ponds, watercourses and drains with this product or used container.

STORAGE AND DISPOSAL

Store in the original container in a cool, well-ventilated aread.
DO NOT store for prolonged periods in direct sunlight. Triple rine containers before disposal. Dispose of rinsings in a disposal pit specifically marked and set up for this purpose,clear of waterways, desirable vegetabtion and tree roots.
DO NOT burn empty containers of product.

SAFETY DIRECTIONS

Will irritate the eyes. May irritate the skin. Repeated exposure may cause allergic disorders. Avoid contact with eyes and skin. When opening the container and using the product, wear elbow-length chemical resistant gloves. If product in eyes, wash it out immediately with water. Wash hands after use.
