Crop	Disease	Rate
Grapevines	*Eutypa* dieback *Botrysophaeria* dieback	Shake or stir container well before use. Spray grapevines to runoff. Apply only during the dormant winter period on fresh pruning wounds **within six days** of when pruning cut is made. Only one spray per season is sufficient.

FUNGICIDE RESISTANCE WARNING

GROUP 3 FUNGICIDE

Sprayseal® is a member of the DMI group of fungicides. For fungicide resistance management the product is a Group 3 fungicide. Some naturally occurring individual fungi resistant to the product and other Group 3 fungicides may exist through normal genetic variability in any fungal population. These resistant individuals can eventually dominate the fungal population if these fungicides are used repeatedly. These resistant fungi will not be controlled by this product and other Group 3 fungicides, thus resulting in a reduction in efficacy and possible yield loss. Since the occurrence of resistant fungi is difficult to detect prior to use, Omnia Specialities Australia Pty Ltd accepts no liability for any losses that result from failure of this product to control resistant fungi.

MIXING: Prior to pouring, shake container vigorously, then add the required quantity of Sprayseal to water in the spray vat while stirring or with agitators in motion.

RE-ENTRY PERIOD: DO NOT allow entry into treated areas until the spray has dried.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate ponds, waterways and drains with this product or used container.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well-ventilated area.

DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank.

DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations.

DO NOT burn empty containers or product.
